PULLEYS

READY-MADE WIRE ROPES AND BOWDEN CABLES

Every day we manufacture thousands of ropes and bowden cables in a wide range of configurations.

CABLE HOLDERS

In addition to our standard cable holders and ceiling attachment, we are also happy to work with you to develop functional products for any type of application. Complemented by the right pre-assembled suspension cables.

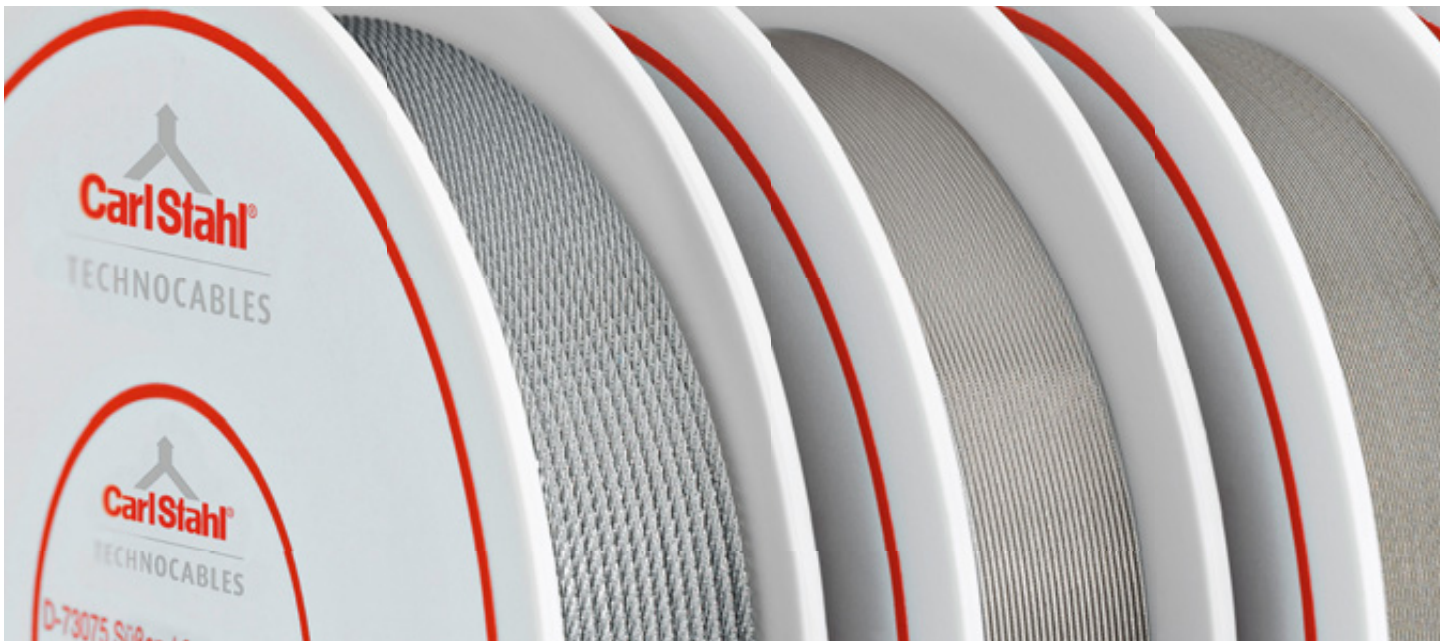

INDIVIDUAL CUSTOM SOLUTIONS

Need an individual solution that is custom-made to meet your requirements? As an established manufacturer and developer, we have our own research and development team that is sure to find the right solution for you.

BULK WIRE ROPES

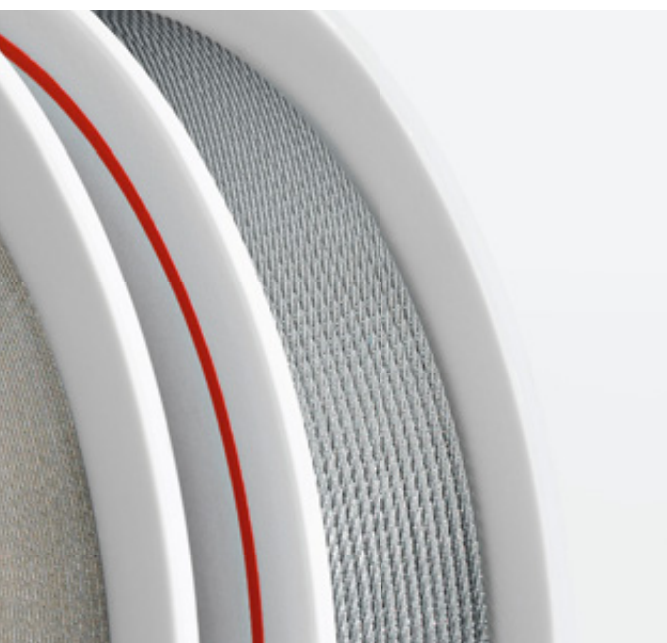

We offer an extensive range of steel wire ropes in various diameters and designs made from a choice of stainless steel, galvanised steel or special materials. Our wire ropes are also available in versions with plastic coating.

PULLEYS

When wire ropes run over pulleys, the right choice of pulley combined with the appropriate rope design can optimise the service life of the product. We are happy to help you determine the right combination of products from our offering.

PURIFIED WIRE ROPES

We use an innovative cleaning process that is specially designed for strands and ropes with applications that specifically demand a deep-cleaned product. This cleaning method achieves a significantly better cleaning result compared to conventional processes.

An increasing number of designers today use the versatile properties and possibilities provided by wire ropes and strands to flexibly and reliably achieve three-dimensional functions. The ready-made rope and individually pre-assembled bowden cables supplied by Carl Stahl Technocables provide high-quality solutions for many mechanical applications. As a result, our products are being used in increasingly more applications and industries all over the world. Discover the possibilities for yourself.

USED IN MANY INDUSTRIES WORLDWIDE

Benefit from the versatile properties of our ropes and strands

GARDENING POWER TOOLS

- Bowden cables with pre-assembled electrical cables for trimmers
- Safety ropes for chain saws
- Bowden cables for lawnmowers

FURNITURE

Carl Stahl Technocables GmbH is part of the Carl Stahl Group. What began in 1880 as a small ropery in rural Germany has evolved into a worldwide company. We offer our customers an extensive range of products and services, as well as our in-house cable production and assembly, certified quality and much more. Everything under one strong roof.

EVERYTHING UNDER ONE ROOF

Profit from all Carl Stahl offers

IN-HOUSE CABLE PRODUCTION AND ASSEMBLY

As an established manufacturer and developer, we have in-house cable production and assembly facilities at our headquarter in Süssen. The perfect synergy between our internal research and development department and the custom equipment we design and build in-house always ensures our consistent quality 'made in Süssen'.

HIGHLY MOTIVATED EMPLOYEES

Our actions and decisions are informed by our culture that values employee involvement to enable quick decisions. Our highly motivated employees act with precision, accountability and process-oriented thinking. Targeted professional development also encourages the further professional and personal growth of every individual.

CERTIFIED QUALITY

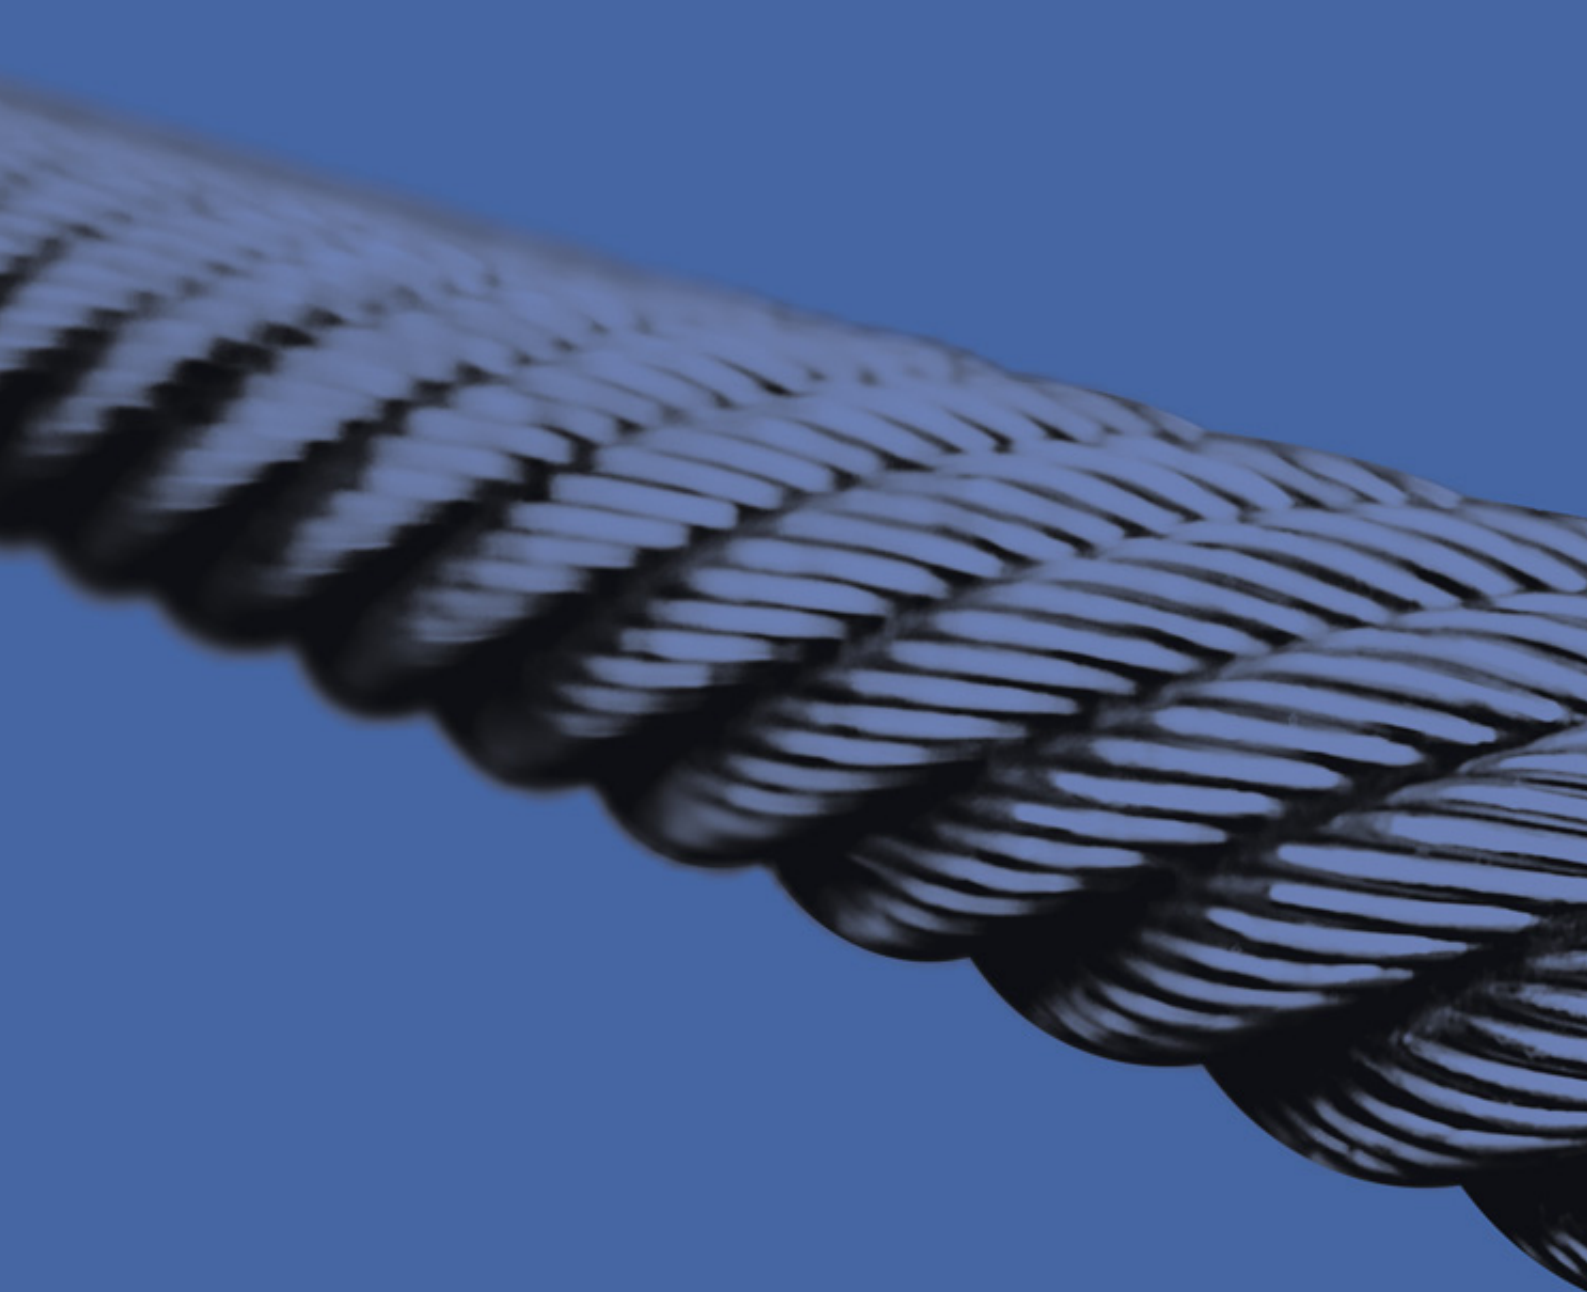

Customer satisfaction is always our top priority and forms the basis of our actions. All of our products are subject to continuous quality control from the receipt of the raw materials until the time we ship the finished goods. Certification under the international DIN EN ISO 9001 standard is practical confirmation of our successful quality management system.

GLOBAL NETWORK

The Carl Stahl Group has around 70 locations throughout the world. Carl Stahl Technocables GmbH itself is represented abroad by our subsidiaries Codica câbles transmissions in France and Carl Stahl Sava Industries, Inc. in North America.
